April Newsletter

I would like to start off with apologizing for not doing a March Newsletter, but as some of you may have noticed, my work location has moved into it's new facility and the month of March was very hectic. The new Emergency Services Center bldg. 2200 is almost fully operational, and now houses the Fire Dept. , Ambulance Section, and the DOD Police Unit. So again, please accept my apology. Now on with business.

Unable to attend the pre-liminary work sessions, it is my understanding that things have gone extremely well. Thanks to all who assisted in these sessions. You probably won't receive this until after the main work session, but once again thanks to those participating.

No confirmation has been made to date for the USCG Courtesy inspections, but when the dates are reached, I will let you know.

SIBO would like to welcome aboard our new members, and we look forward to working with you, and if you need any information or assistance in our operation please do not hesitate to contact any of our Advisory Board members.

Enclosed will be a list of jobs still needing to be completed as of this newsletter, and also the first list for security watches.

We have some carpentry work, plumbing work, electrical repairs, painting, and are looking for someone who may dable in fiberglass repair (dinghies), and brush removal on the shoreline and parking area. Contact any Advisory Board member, and work at your leisure toward your work hours.
